Mr. Charles C. Bering
Assistant Regional Counsel
U. S. Environmental Protection Agency
Region 1
J. F. Kennedy Federal Building
Boston, MA 02203-211

Dear Mr. Bering:

This is another request for documents in connection with the Battelle Sampling program. Specifically, there are three items we need:

1. A key, or legend, to the Sediment Sample Identification Codes is required to enable us to identify sampling station, sampling depth, particular analysis, etc. A key for all codes is requested, but of particular concern are the codes corresponding to Total Organic Carbon and Grain Size Sediment analyses.
2. A key, or legend, similar to that described in (1.) above, is requested for biota samples.
3. Maps, or figures, are requested that show the sediment and biota sampling locations or stations.

If you have any questions with regard to this request, please feel free to contact me. Thank you once again for your assistance.

Kindest personal regards,

John Allshouse
Staff Engineer
